

Who We Are, Who We Help

Rebuilding Together North Suburban Chicago believes in safe homes and communities for everyone. That's why our mission is repairing homes, revitalizing communities, rebuilding lives. We improve the lives of our neighbors by providing free home repairs for those with the greatest need, enabling them to remain in their homes and live in warmth, safety and independence. In partnership with our communities, we accomplish these goals through the effort of volunteers and our financial supporters.

Repairing homes, revitalizing communities,
rebuilding lives.

Get Involved

National Rebuilding Day

Each year on or around the last Saturday in April, we host our Rebuilding Day, bringing together community teams to

transform homes and change the lives of those we serve. We rely on donations of money, materials and both skilled and unskilled labor to repair homes.

- Community groups and local businesses can **provide both financial backing and volunteers**
- Individuals can **serve as house captains**, organizing and managing repairs at each home
- Skilled tradespersons can **donate expertise**, time and oversight
- Businesses and charitable groups can **contribute** financial support or in-kind materials

“The best feel-good day you’ve had in a long time!”

All Year Long We coordinate skilled trades and in-kind donations to repair and revitalize homes, partnering with local social service organizations to identify homeowners whose needs are immediate.

Find People in Need

Referrals are always welcome. Most individuals and families are referred to Rebuilding Together by local social service agencies, villages, cities, community leaders and neighborhood associations. Self-referrals are also accepted.

We assist homeowners who cannot afford much needed maintenance and repairs on their homes themselves, with a special focus on seniors, persons with disabilities, veterans and families with children. Nonprofit facilities are also eligible.

Applications can be found on our website — www.rebuildingtogethernsc.org

Homes are inspected and evaluated by a skilled inspector or tradesperson. Selection is based on need, available resources and other eligibility requirements.

“Thank you to everybody for putting so much time and effort into helping us rebuild our home! The transformation was unbelievable and eye-opening to the kind of miracles that can happen when people come together.”

Homeowner, after Rebuilding Day

Make a Big Impact

It costs, on average between \$3,000 - \$5,000, plus in-kind donations, to renovate each home.

Each year Rebuilding Together NSC

- Performs repairs on over 50 homes
- Gathers 600+ volunteers
- Donates countless hours

To help repair and revitalize homes for

- Seniors
- Persons with disabilities
- Veterans
- Families with children
- Women homeowners

“How blessed I was to have a group of volunteers come into my house and say, ‘What would you like me to do?’ ... I will be forever thankful for your kindness and generosity.”
